Get more from your parts.

The ACM Aftermarket range currently includes; collision parts, cooling and lighting products, including bumpers, doors, grills, fenders, tailgates, radiators, intercoolers, condensers and headlights, and will continue to expand.

Each part has been individually verified to ensure fitment, functionality, and quality. To guarantee this before production each of the collision parts undergoes thorough fitment testing. This process includes the use of a 'Creaform MetraSCAN' scanner to build a CAD reference file of the aftermarket part, this is then overlaid with the Genuine CAD file to ensure fitness for purpose, allowing the ACM Parts' Aftermarket range to offer quality fitment assurance.

Aftermarket range includes:

- Bonnets
- Brackets & Supports
- Bumpers
- Condensers
- Doors
- Guards
- Grills
- Headlights/Taillights
- Mirrors
- Mouldings
- Radiators
- Tailgates

QUALITY & FITMENT GUARANTEED PARTS & ACCESSORIES

ACM Parts range of quality assured Aftermarket parts guarantee material, fitment, and functionality, offering peace of mind when selecting an Aftermarket part. This range includes collision parts, lighting, and cooling components to suit a large range of major makes and models.

ACM's Aftermarket range is focused on quality and reliability. You can rely on every part to meet all the OEM lifecycle performance standards — offering repairers an easy, fast, and cost-effective solution for sourcing parts.

Quality Assurance, Guarantee

All of ACM Aftermarket parts include a 12 month guarantee: in the unlikely event a part fails, ACM Parts will cover the cost to replace the part.

IT IS OUR MISSION TO REDEFINE REPAIR

ACM Parts is Australia's largest provider of alternative and specialty parts to the automotive repair industry, keeping vehicles on Australian roads. We support better ways to repair vehicles by providing a choice of options to extend the life of a vehicle. Providing customers a comprehensive range of Reclaimed, Genuine, and Aftermarket parts to suit your repair needs.

Setting the standard for service, product availability and quality assurance for the repair industry. Our unique and integrated model allows ACM Parts to control the supply chain of parts through ACM Parts dismantlers, demand tracking, and warehouse capabilities.

We offer our customers an easy, fast and cost effective solution for sourcing parts, which is backed by our limited lifetime guarantee. Visit our website for more information.
