PARTS**

OUR EXPERTISE

We support customers through the full repair supply chain, from sourcing or dismantling and parts interpretation to fitment advice.

We develop strong relationships built on trust with our customers, truly understanding and predicting their needs by bringing them a range of alternative parts and solutions.

WHAT SETS US APART

ACM Parts strives to provide the best range of quality parts to meet the needs of the Australian vehicle repair market.

We understand that no two repairs are the same, therefore we focus on providing a range of quality part solutions that allow drivers and repairers a range of choices to meet their requirements.

ACM PARTS

Genuine

New parts, equivalent to OEM

Our experience as a genuine parts and OEM supplier to the largest repair network in Australia offers a significant advantage. All of our products are sourced to ensure precision – guaranteed to fit the original equipment manufacturer's specifications. Our products are subjected to rigorous safety and performance testing

This commitment to sourcing quality parts for the repair trade has provided ACM Parts with a reputation for reliable, quality components which in turn provides tremendous long-term value for our trade and end-user customers.

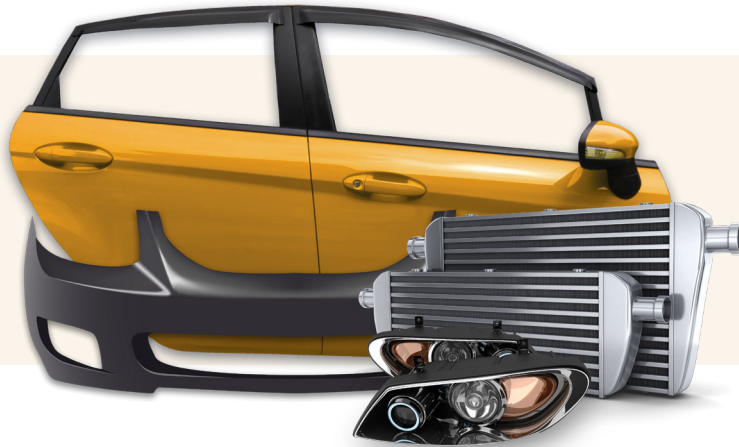

Genuine range includes:

Doors	Tailgates
Mirrors	Grilles
Head Lamps	Bumpers
Tail Lamps	Guards
Badges	Bonnets

ACM PARTS

Aftermarket

Quality fitment guaranteed

ACM Parts' range of quality assured Aftermarket parts guarantee material, fitment, and functionality, offering peace of mind when selecting an Aftermarket part. This range includes collision parts, lighting, and cooling components to suit a large range of major makes and models.

ACM's Aftermarket range is focused on quality and reliability. You can rely on every part to meet all the OEM lifecycle performance standards — offering repairers an easy, fast, and cost-effective solution for sourcing parts.

Aftermarket range includes:

Bonnets	Grills
Brackets & Supports	Headlights/ Taillights
Bumpers	Mirrors
Condensers	Mouldings
Doors	Radiators
Guards	Tailgates

An alternative option to new

Reclaimed parts are both affordable and a more sustainable and environmentally friendly option than new parts. These parts have been reclaimed from end of life vehicles, making them equivalent to the OEM standard in terms of fit and function. This means they are guaranteed to fit into the vehicle being repaired.

All reclaimed products come from one of ACM Parts' 3 production sites where we dismantle vehicles.

Each vehicle is carefully inspected and dismantled to our industry-leading standards, ensuring our customers receive a consistent high-quality product.

Reclaimed range includes:

Engines	Mirrors
Transmissions	Head Lamps
Rear Axles	Tail Lamps
Radiators	Bumpers
Condensers	Guards
Electrical	Bonnets
Doors	Wheels
